KILL THE CHILDREN   (in 4/4)

          D
There are two sides to this fight they say
In this genocide on occupied land
A war between armies is what they say
To make sure we do not understand

        C
It's colonialism from the very first day
Building walls and growing grief
D
Righteous mass murder's here to stay
on stolen ground – what do you believe? They say –

        G
Refr, Kill the children because they might be
         D
         born a terrorist, raised to be the enemy
         G
         Kill the children because they might be
         D
         taking up arms to be free from the enemy

Another Nakba – Another lie
Settlers decide what's wrong or right
Lynch mobs attack – noone's asking why
Blame the victims for picking the fight

Cut off the water, juice and the food supply
Sowing more hate – cutting the olive tree
If you still wonder: Why do people cry
Palestine be free! – from the river to the sea! They will –

     Refr.

Now there's demonstrations across the nations
Forbidden, arrested – charged with a crime
Hospitals burning in the Gaza strip
Now what do you think will be a good time

To take down the flag of the Zionist state
If they want war – now it's time to start one
On the streets of Europe and the US of A
Palestine, be free! – from the river to the sea! 'cause they –

     Refr. 2x
D   G   D
Palestine, be free! – from the river to the sea!
