

ONE DAY (in 4/4)

Em D
Behind every door, there's a dream
B7 Em
and if there is not, there's a scream
Em D
Both they are quiet behind every door
B7 Em
in every prison on every floor

Behind every door, there's a dream
A whisper or cry, they're not what they seem
Both they are waiting but who knows what for
in every cell a day once more

Refr.: One day, one day, the dreams will be set free
Away, away – away from lock and key
But today, today, the dreams can only flee
Away, away, way....

Behind every door, there is hope
and if there is not, there is dope
They both set the mind free, asking for more
in every prison on every floor

Behind every door, there is hope
banging the walls, how else can you cope
If you hear laughter, you know what it's for
to get through the day, the hours once more

refr.

Behind every door. there's a way
and if there is not, you might forever stay
It is worth the fight or else you just score
In every prison on every floor

Behind every door, there's a way
breaking through time – away every day
The greatest escape is in your mind once more
Out of that cell and right through the door

refr. 3 x (2^e acapella) - Away away away – away away away (B7 D E)
